

## 2019 Education Assist Schedule of Fees

Education Assist ensures that information provided to students prior to enrolment outlines the fees and charges that are applicable to a course of study and details of funding where a student may be eligible. To check eligibility please contact Student Services.

The fee structure listed is all inclusive and there will be no unexpected fees or expenses. Standard inclusions are all tuition, online access, required learning materials and content. Should there be any additional resources associated with a program of study the student will be advised in the course brochure prior to enrolment in the program.
